

Part II. Adoption Process and Documentation

The WFRC PDM Plan was developed as a multi-jurisdictional Plan. Therefore, to meet the requirements of Section 322 of the local hazard planning regulations, the final Plan must be adopted by each of the municipalities as well as the five counties. This section documents the adoption process of each local government in order to demonstrate compliance with this requirement. The Plan will be adopted following FEMA Region VIII approval. Tables 2-1, 2-2, 2-3, 2-4 and 2-5 identify the communities that participated in the planning process and will adopt the Plan. All of these jurisdictions are seeking plan approval. A sample of the adoption resolution is given at the end of this section. Each of these jurisdictions also participated in and adopted the previous PDM Plan in 2003. Every jurisdiction and County (listed below) participated in the PDM Planning process, either attending kick-off meetings, or participating in Working Groups. Elected officials from every jurisdiction were present at the several County Council of Government (COG) Plan briefings, and participated in the public meeting Plan adoption process. All of the jurisdictions that participated in the 2003 PDM Plan in the Region also participated in the 2008 PDM Plan. Special service districts that were not a part of the 2003 Plan have been included in this update. However, no new towns, cities or counties have been added. None of the jurisdictions rejected the Plan, the adoption process was unanimous.
